Reimagining Home Furnishing Through
Technology

About Us .

VESTCOAT® is a complete Home Furnishing brand having experience in technology, and home furnishings with properties across Mumbai.

Vestcoat™ (www.Vestcoatdesign.com) is a property management and operations brand focusing on managed vacation rentals and business residences having operations in Mumbai and Goa. Working closely with some of the top real estate Developers in India, our mission is to create a perfect home ownership experience for the average home buyer. Our partner real estate developers deliver quality constructed houses, and we help homeowners convert them into well- designed homes.

01

30% Lower cost through direct Sourcing

Use of technology can add immense value in terms of quick visualization of design and selection of individual products in conjunction with the overall design theme of the home. While a process-based technology enabled execution by professionally trained ground staff makes the home furnishing process efficient and cost effective for the homeowner saving approximately 30% of the furnishing cost.

02

Designer Home for Everyone

Our team of interior designers provide the design services, cost of which are subsidized by our revenue from selling the products from our affiliated partners and suppliers. This enables the average homeowner to access the expertise of an interior designer in a cost-effective manner which enables us to create a demand engine for our supplier partners.

03

Sustainable Partnerships

Our Partnerships with some of the best Furniture, home appliances and Home Furnishing companies in India helps us source top quality furnishings at competitive rates for homeowners. This enables us to help our Real Estate developer partners to provide top class designs and the most competitive prices in the market.
